

A place to think and grow

Principles of science at Brookhurst Primary School

Children are fully engaged in their science learning and have fun during interesting and exciting lessons.

Creative and exciting lessons

Have fun

Creating awe and wonder

Investigating the world

Children show an interest and understanding of the world around them and investigate how science relates to their everyday lives.

Children take part in practical, hands on learning and explore a range of equipment and the wider environment as a resource.

Exploring and investigating

Children show and develop curiosity by investigating, exploring and asking questions.

Test ideas and enquire

Taking learning outside

Inciting curiosity and questioning

Practical, hands on learning

Children are motivated and challenged to explore science topics and use a wide vocabulary to deepen their understanding.

Challenge and support
